

Want to Help Us Promote the 5th Annual Family Night Event? Below you will find sample Bulletin or Newsletter Text you may include in your church or organizational newsletter; a Family Night Announcement that can be used as a PSA or in any meeting you attend or host! Thank you for helping grow Strong Wyoming Families!

Bulletin or Newsletter text:

Celebrate “Family” on Monday September 28th! This is the date of both Wyoming’s and the National Family Day event. Call 1-866-WYO-FAMS or log on to www.wyofams.org to receive your FREE “Family Night Goes Green” booklet for a year’s worth of fun and environmentally based family activities. Then schedule a family dinner on September 28th and get your family conversation started! Children who eat meals with their family are more likely to do better in school and less likely to abuse drugs and alcohol. For more information visit WHMI’s website at www.WYOFams.org

Family Night Announcement (you may read this on Sunday, Sept 27rd or anytime prior to Family Night on Sept 28th)

Reader 1: On Monday September 28th communities across the nation will be celebrating family night! Family Night is a time for families of all types to get together, share a meal and spend time together.

Reader 2: We know that family life gets busier with every passing year, that’s why we encourage you and your family to celebrate Family Night and to work throughout the year to spend more time together as a family.

Reader 1: Statistics show that the more time children spend with their family the less likely they are to smoke, drink, or use drugs. And kids want to spend time with their family!

Reader 2: So help your family celebrate family night by GOING GREEN. Call WHMI at 1-866 WYO-FAMS and request your FREE 2009 Family Night booklet today! It has been provided by the WY Healthy Marriage Initiative, WY Departments of Family Services, Environmental Quality, Workforce Services, and Health; and Wyoming’s First Lady Nancy Freudenthal. This booklet includes 12 months of family fun activities, conversation starters, and fun environmental facts!
